The following is a list of the most commonly prescribed medications covered on the National Preferred Formulary prescription drug list (PDL). It represents an abbreviated version of the PDL that is at the core of your prescription plan. The PDL is not all-inclusive and does not guarantee coverage. In addition to using this PDL, you are encouraged to ask your physician to prescribe generic medications whenever appropriate.

**PLEASE NOTE:** Brand-name medications may move to nonformulary status if a generic equivalent version becomes available during the plan year. Not all the medications listed are covered by all prescription plans; check your benefit materials for the specific medications covered and the copays for your prescription plan. For specific questions about your coverage, please call the phone number printed on your prescription ID card.
